Summer Internship and Apprenticeship Opportunities for Software Engineering Students

Attention all Software Engineering students! We are excited to announce that this summer, some fantastic internship and apprenticeship opportunities at leading companies are waiting for you. This document outlines the eligibility criteria and application process to ensure you can seize this amazing opportunity.

Academic Requirements:

To be considered for an internship or apprenticeship, you must meet the following academic criteria:

1. Pass at least 9 out of 10 subjects in the academic year **BY JUNE 30th**.
2. Attend the mandatory Career Session organized by the partnership department at the end of the second semester.
3. Fill your student profile with CV, Portfolio, Short-Bio by the given deadline.
4. Attend the mock-up interview held during the Career Session.

Internship vs. Apprenticeship:

1. **Apprenticeship:** Learning a new tool, programming language or skill set, highly demanded on the job market, but not covered in the college curriculum, taught by an industry partner (company from the relevant field).

2. **Internship:** Gaining practical industry experience at companies by demonstrating acquired skills throughout the academic year.

Characteristics	Apprenticeship	Internship
PAID	NO	Possible
LOCATION	Hybrid (partly remote and partly on-site)/Online	On-site or Hybrid
SKILLS	Practice of the skills gained and/or Additional tools, advanced skills or new technology (stack)	Practice of the skills gained during academic year
BENEFITS	Real-world working environment + additional stack in your CV	Experience in a real-world work environment

DURATION	1.5/2 months	2 months
Working hours	3-6h class + 15-20h working tasks by week	6h by working day
SENIORITY	**Junior**	**Junior**
Concept	Working in a group of peers	Individual Work

Additional requirements:

1. Express your interest: First, let us know by **March 10th** if you're interested in participating in internship/apprenticeship programs this summer.
2. Disciplinary record: Students with disciplinary measures on their record are not eligible for these programs for the ongoing academic year (this does not mean you can't make up for it next year).

👆 Remember, letting us know that you are interested in participating in the program this summer will not be taken into consideration if you do not meet the above mentioned criteria.
If you meet the criteria and you are interested in participating, the decision on the type of training you will receive is made based on several factors:
- Professor recommendations: Professors' insights about your class contributions, performance, and skills at different subjects.
- Your stronger sides and their alignment with the requirements of different Internship/Apprenticeship positions will be considered.
- Preferences of the company based on student profiles.

Timeline:

March 10th: Let us know if you'd like to participate in the program this year
Mid May: Attend the Career Session and complete mock-up interview
Mid July: Final selection and program placement announced
Start of August/Mid August: Start of program

Next Steps:

- Submit your interest by the deadline.

- Attend the mandatory Career Session for detailed information and interview preparation.
- Stay updated through departmental announcements and communications. Be timely in your communication with your Student Success coordinator or the Partnerships team and be diligent if following their instructions promptly.

We look forward to seeing your applications and supporting your journey into the software engineering world!
